BY ICEHOTEL

STOCKHOLM'S COOLEST BAR

Experience a room of shimmering ice from the Torne river right in the heart of Stockholm. ICEBAR STOCKHOLM by ICEHOTEL opened in June 2002, and was the first ice bar in the world to stay open all year round.

The ice bar is a unique collaboration between Nordic Sea Hotel and ICEHOTEL in Jukkasjärvi, Swedish Lapland. The temperature remains around -5°C . As part of the experience, you can borrow a specially-designed cape with gloves. Inside the ice bar you can enjoy ice sculptures and a huge range of drinks, served in ice glasses.

WEEKEND PACKAGE

Book an exclusive weekend package at Nordic Sea Hotel including entrance to ICEBAR STOCKHOLM. Profit from our excellent location with walking distance to Stockholm's major sights.

ICE MENU AND ICE SCULPTING

Enjoy a three course menu served on plates of ice, or try ice sculpting with the help of experts from the ICEHOTEL. Ice sculpting is an excellent group activity – compete against each other and let your imagination run wild.
